1. Print speed measured using ISO/IEC 24734 Office Suite and Feature Tests, excludes first set of test documents. For more information, see hp.com/go/printerclaims.com. Exact speed varies depending on the system configuration, software application, driver, document complexity, media size, media orientation, and media type. HP High Speed may require a firmware upgrade to enable.
2. Maximum input capacity may require purchase of additional optional input accessory.
3. HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.
4. A speed license is required to upgrade print speed in most countries. For more details, please contact your Market Category Product Manager.
5. Optional input and output accessory availability varies by device.
